

## MISSION AFRICA REPORT

### Prison Ministry continues apace/Mission to Kijura 7<sup>th</sup>- 14<sup>th</sup> May

We continue to praise God for all that He is doing through Mission Africa's prison ministry teams! After the joy of seeing one hundred and three people dedicating themselves to the Lord during February, we were able to visit no fewer than ten prisons during the early part of March and saw another eighty people accept Jesus into their hearts, including nine Muslims and three prison staff.

#### An evangelist in the making?

Daniel's team doing a dance for the prisoners

Good Friday saw **seventeen** more people come to salvation as a result of **Daniel Kato** taking a team of thirty five people drawn from both his church and the school where he is the administrator into **Ngoma** prison. The team included **Joel**, his 6 year old son, who stood and quoted a memory verse from **John 10 v10** "*The thief comes only to steal and kill and destroy; I have come that they might have life, and have it to the full.*"

Joel joining the worship team

#### Prisoners filled with the Holy Spirit!

To conclude this great Easter blessing, three more prisons were visited by Richard and his team taking in bread, milk and clothes for the prisoners. A further **thirty one** prisoners gave their lives to Jesus including two staff members. In **Kaliro** prison the prisoners were filled with the Holy Spirit during the praise and worship time to the amazement of the staff members! So in total a glorious **one hundred and twenty eight** saved in one month. Praise God!

## Specific Prayer needed for Mission to Kijura 7<sup>th</sup>- 14<sup>th</sup> May

Your prayers are particularly requested for our forthcoming mission to Kijura, a small township which is twenty miles from Fort Portal in the ancient kingdom of Toro some 300 km west of Kampala. Fort Portal is situated some 5,000 feet above sea level and overlooks the Ruwenzori mountains on the Congo border and is surrounded by many tea and coffee plantations. The mountains rise to nearly 17,000 feet and have a permanent snow line despite their closeness to the Equator!

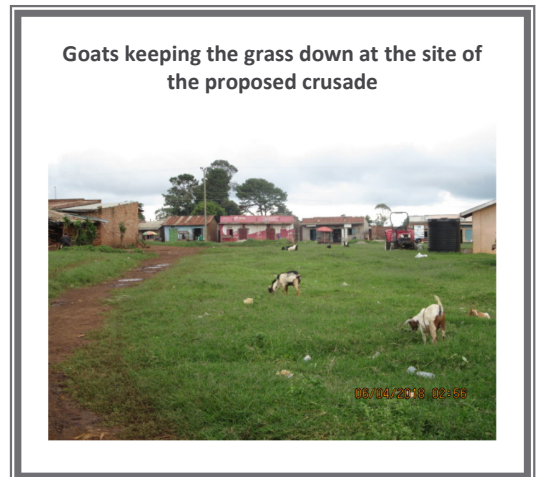

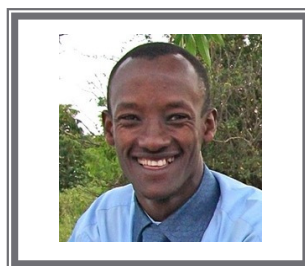

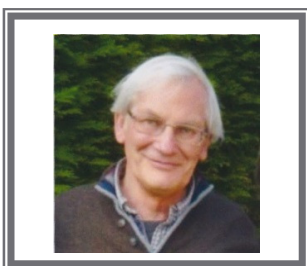

The location of the mission is just a few miles from a village where we held a mission back in 2004 where we saw a most wonderful harvest of souls and many healed (including four cases of blindness!)

Our leader for this mission, **Fred Makubuye** has been battling in the courts over the last few years to protect his church which has been on the same site for twenty years. A relative of the lady who originally sold the land has been claiming that the lady did not have the legal right to do so. The matter has recently come to a head with multiple court hearings. This is a huge distraction for him as he attempts to organise the mission from this considerable distance away.

Other points to pray for please include the following spiritual challenges: false prophets, night dancers (dabblers in witchcraft), sacrificial rituals, adultery, fornication, murder, robbery and poverty. As you can see, we are believing God for a **great** break through despite all the very many challenges.

**Thank you so very, very much indeed for all your prayers, encouragement and immense support without which none of the above would be possible.**

**With our love, Terry Charlton, Steve Trint and Daniel Kato on behalf of the Mission Team**

Bay Tree Cottage, La Grande Route de St Pierre, St Peter, Jersey, JE3 7AY
